

TRUST THE PEOPLE

# JOIN THE NEXT COURSE

***Fed up with the way things are? Got ideas on how you would shape things for the better? Ready to collaborate with others and take matters into your own hands?***

Join our **FREE** community organising course to learn skills, share ideas and make connections with others interested in pushing for change.

<https://www.trustthepeople.earth>

We will explore different aspects of community building, from connecting with people one-on-one to running People's Assemblies, which harness the wisdom and power of the community. The core 2-hour workshop runs twice each week, and all content is recorded to make the course accessible to all.

Together, we can build the connected, caring, resilient and democratic communities we need to help us face local and global crises.

***'I can't recommend this course highly enough.  
EVERYONE should do it'***

**Sue Holmes, Carmarthen CEC**
